ERA INN: ONE SYSTEM, INFINITE SOLUTIONS

The silent solution for interiors.

The new Era Inn system is here! Era Inn is the smart, silent and versatile new system for optimising natural light and maximising energy efficiency.

- MEMORY LOCKING
- DRY CONTACT
- ELECTRONIC LIMIT SWITCH
- DIAGNOSTICS LED
- DECELERATION MODULATION
- MANUAL PROGRAMMING
- SEMI-AUTOMATIC PROGRAMMING
- INTERMEDIATE HEIGHT
- BUILT-IN RADIO RECEIVER
- OBSTACLE DETECTION
- SOFT START & SOFT STOP
- PERFECT ALIGNMENT
- LIMIT SWITCH ADJUSTMENT PUSHBUTTONS
- BUS T4 TECHNOLOGY
- TTBUS
- RATED SPEED

InnovAction

The Nice Era Inn system was recognised as the most innovative product at the R+T Shanghai 2016 exhibition and won the InnovAction Award.

ERA INN **SMART**

With electronic limit switch and Nice Bus T4 technology.

M Ø 45mm **S** Ø 35mm

ERA INN **EDGE**

With electronic limit switch and built in radio receiver.

M Ø 45mm **S** Ø 35mm

ERA INN **ACTION**

With mechanical limit switch and built in electronic control board.

M Ø 45mm **S** Ø 35mm

ERA **MAT**

With electronic limit switch and built in radio receiver.

M Ø 45mm **S** Ø 35mm

ERA **S**

With mechanical limit switch.

S Ø 35mm

ERA **M**

With mechanical limit switch.

M Ø 45mm

NICE ERA TRACK

Curtain motors suitable for straight and curved rails.

RUNNERS WITH HOOK
ROTATING 360°

ERA TRACK **PLUS**

With electronic limit switch,
Phase control,
Built in dry contact and radio
receiver

 Capacity 60kg/80kg

ERA TRACK **EDGE**

With electronic limit switch,
Phase control,
Built in dry contact and radio
receiver

 Capacity 80 kg

CEILING BRACKET, WALL BRACKET AND ROUND BRACKET ARE AVAILABLE FOR DIFFERENT INSTALLATION REQUIREMENTS

ROBUST AND SOFT THANKS TO THE TEXTILE BELT WITH INSIDE IRON WIRE

MOTOR CAN BE POSITIONED ON BOTH SIDE OF THE RAIL

THE RELIABLE AND FLEXIBLE SOLUTION OF WIRED AND RADIO AUTOMATION SYSTEM FOR CURTAINS.

- EASY AND QUICK TO INSTALL
- AC POWER SUPPLY
- BUILT-IN DC ADAPTER
- BUILT-IN RADIO RECEIVER
- AUTOMATIC LIMIT SETTING FUNCTION
- RELIABLE AND SILENT – SELF LUBRICATING RAIL
- SOFT START AND SOFT STOP
- HAND START FUNCTION
- COMPACT AND DISCREET DESIGN
- EASE OF MANUAL OPERATION IN THE EVENT OF POWER FAILURE
- SUITABLE FOR STRAIGHT AND CURVE DRIVE

PROTECTING THE FUTURE

Corporate social responsibility is a high priority at NICE. Our products are produced mainly in Italy, meeting the most stringent environmental standards. This means that we monitor our CO² footprints and strive for the lowest possible CO² emissions. NICE monitors the quality of all its products continuously.

NICE has its own R&D department and now possesses various patents and design protections.

NICE laboratory is recognized by the following certification bodies:

- ▶ LCIE (France)
- ▶ Nemko (Norway)
- ▶ Cetecom (Germany)
- ▶ FCC (USA)
- ▶ IC (Canada)
- ▶ Intertek (Sweden)
- ▶ UL (USA)
